EDUCATION

MSC, COMPUTER SCIENCE

Karlsruhe Institute of Technology
Karlsruhe, Germany
Information Systems, Software Engineering, Entrepreneurship
A+, with distinction, two publications

BSC, COMPUTER SCIENCE

University of Würzburg
Würzburg, Germany
Information Systems, Economics
A+, with distinction, one publication

SKILLS

LANGUAGES

Python, SQL, Java, PHP, HTML/CSS, Typescript, RegEx LaTeX, YAML, Bash, XSLT, Typescript, GraphQL, HCL

TECHNOLOGIES

scikit-learn • Pandas • Playwright • Scrapy • FastAPI • Django • Laravel • NextJS • React • Tailwind • Postgres • SQLite • MySQL/MariaDB • MongoDB • elasticsearch • Redis • Kafka • Spark • Docker • Terraform • GNU Make • AWS • GCP • Gitlab • Grafana • GIT • Unix • Debian • LDAP • UML

TOPICS

Leadership, Venture Capital, Near-/Offshoring, Scrum, Data-driven decisions, Entrepreneurship, Process Automation, Software Engineering, Requirements Engineering, Clean Code, Test-driven development, Web Development, Machine Learning, Undetected Crawling/Scraping, Geospatial Data

EXPERIENCE

APISTEMIC | Managing Director

2023 - today | Berlin, Germany

- founded and launched AI startup building a data layer for intelligent systems
- built and launched startupradar.co, an AI-first platform for investors enabling top-tier firms across Europe to find relevant startups globally
- designed and implemented large-scale data ingestion and machine learning pipelines to predict startup success and investor relevancy

PARTSCLOUD | (Interim) CTO

2021 - 2022 | Stuttgart, Germany

- led technical strategy from idea stage through successful €1M+ seed round
- designed customer journey and lead requirements engineering process for AI-powered spare parts platform
- recruited and onboarded CTO, ensuring smooth leadership transition

HAYS | Business Owner CRM/CDM/GDPR

2020 - 2021 | Stuttgart, Germany

- managed CRM, CDM, and GDPR for a German-Chinese automotive client in an international team, reporting directly to C-level
- led requirements engineering as SAFe Business Owner across two continents, three suppliers, and three SCRUM teams for an enterprise platform
- conducted technical assessments for €10M+ tender processes across EU and China markets as well as deep dives into future data architecture

FIRST MOMENTUM | Founding Partner

2016 - 2020 | Karlsruhe, Germany

- founded and co-lead one of Europe's leading deep tech venture capital funds
- established a competitive edge by building startup scrapers and using machine learning to find investment opportunities
- desinged and implemented a SaaS platform enabling investors to access dealflow automatically

GERMAN IT JOBS | Co-Founder & CTO

2015 - 2017 | Stuttgart, Germany

- co-founded a talent and recruiting platform connecting international developers with German companies
- designed and implemented processes to automatically engage, acquire, and screen candidates, leading to a fully autonomous application process
- built platform scrapers to automatically find and approach exceptional technical talent

KARLSRUHE INSTITUTE OF TECHNOLOGY | Research Assistant

2014 - 2016 | Karlsruhe, Germany

- conducted data analysis on safety-critical airplane vibrations and finding their cause, which lead to their elimination
- desinged and implemented a transparent encryption layer by translating database queries at runtime
- published three academic papers in the process
